Sir:

Applicants respectfully request acceptance of color drawings in connection with above-identified application. Previously submitted black and white drawings were stated not acceptable for having a line quality that is too light to be reproduced (Notice to File Missing Parts of Nonprovisional Application, mailed March 30, 2004), and color drawings are believed to be necessary as the only practical medium by which to present reproducible line quality and to properly disclose the subject matter sought to be patented in this application.

In accordance with 37 C.F.R. 1.84, Applicants herewith submit the following:

- (1) Three (3) sets of color drawings for Figs. 1A to 7B;
- (2) A black and white photocopy that accurately depicts, to the extent possible, the subject matter shown in the color drawings; and
- (3) An amendment to the specification to insert the language required under 37 C.F.R. 1.84(a)(2)(iv) as the first paragraph of the Brief Description of the Drawings.

The fee for this petition is estimated to be \$130.00. Please charge the required fee to Winston & Strawn Deposit Account No. 501-814. A copy of this sheet is enclosed.

Respectfully submitted,
